

Trading Card Project

You will create a trading card of a Founding Father that signed the Declaration of Independence. Make sure your trading card is 5x7 in size, placed in portrait format. (Long side vertical)

The card should have the following items:

Front side:

- Name (First and last)
- Picture of person
- State he represented
- Age he was when he signed the declaration
- Lifespan

Back Side:

- Besides being a delegate, what was his occupation
- Age at death
- Military service
- Marital and family status
- Unusual or interesting fact about the signer

Your project will also include a short biography about the signer. All the information on the card should be included in the bio, but also dig a little deeper and enlighten the class with as much interesting information you can find about him.
